That means
Give one login if user is client then move to client page, or advocate is identified then move to adv page like that

2. Give a list of cases for advocate that needed to appear court based on months
Eg:
June month on 15th case needed to appear with case number by clicking on case number should display the case details page
On 16th case needed to appear with case number etc
July month dates cases need to be attended etc
